# EMULSIFIER

## EMULSIFYING DETERGENT / SOLVENT

### DESCRIPTION

EMULSIFIER is a liquid emulsifying agent when used in conjunction with an alkali (eg BOOST or ORTHOMET) will remove heavily embedded soils such as grease, oils, fats from synthetic cotton blends and pure cotton blends.

### BENEFITS

- Penetrates stains and oils faster than detergent/alkali combinations.
- Safe to use on all types of fabric.
- Is a non flammable product unlike many laundry solvents on the market.
- Is particularly effective on synthetic blends.
- Assists in maximum washroom efficiency in conjunction with a detergent/alkali combination.

### METHOD OF USE

EMULSIFIER is added to the cold break with BOOST at the rate of 100 mls per 50 kg wash load. Then follow with normal wash cycle.

### HEALTH HAZARD INFORMATION:

See separate Health and Safety Data Sheet available on request.

### PACKAGING:

- ◆ 15 Litre polyethylene drums

The Product Information Sheet supersedes all previous issues for this product. Information contained herein is offered in good faith as being true and accurate to the best of our knowledge, but as the conditions of use are beyond our control, no guarantees are either stated or implied.

Where health or safety data given discloses a risk to the user or the environment, it is the responsibility of the purchaser to pass on the information to employees who may be using the product, ensuring that adequate safety procedures are used, including good industrial hygiene.
