MULTI SAN

Quaternary Ammonium Based Sanitiser

Active Constituent : 100 g/L Quaternary Ammonium Chloride

DESCRIPTION

MULTI SAN is a clear blue liquid which is a highly active sanitiser.
MULTI SAN sanitises all surfaces and is safe on all metals including aluminium.

APPLICATION

MULTI SAN is a highly active sanitiser, deodourant and fungicide based on quaternary ammonium compounds and is designed for use in areas of food preparation

BENEFITS

- Broad spectrum biocidal activity against both gram positive and gram negative organisms.
- Better disinfectant performance at lower use concentrations.
- Greater hard water tolerance sanitising activity at lower use levels.
- Superior organic soil tolerance.

DIRECTIONS FOR USE

MULTI SAN is used at a dose rate of 1 part to 50 parts of clean water, which will provide 200 ppm of active quaternary ammonium compound. **MULTI SAN** can be applied by spraying, fogging or mopping onto the required surface. **MULTI SAN** should only be applied to precleaned surfaces. Residues should be removed from the product containing surfaces of equipment by thoroughly rinsing with clean water prior to the commencement of operations.

FOOT BATH

Fill the foot bath with water and add **MULTI SAN** at the rate of 1 litre per 300 litres of water. Replace the solution at least once per shift
